Mission
Our design mission directly relates to the Maya Way. We have created spaces that are personalized to foster and showcase the innate talent of the students at Maya Angelou. We have provided relevant and engaging spaces that tie the community together while emphasizing a bright future and success.

Section
In this space we have created an area where the students of Maya Angelou can congregate together and connect to their heritage while feeling empowered by the word’s of a Maya Angelou quote. This quote leads to a mosaic designed and constructed by the community.

Design Process

In this space we have created an area where the students of Maya Angelou and the community can come together to showcase their talents to others. The bordering vegetation contains seasonal plants that show growth alongside the students.
