7. Hill
Implementation

The terraced stage serves as a picnic area, gathering space, and entertainment venue. The hill acts as seating for the stage as well as place space for children.

Existing

Clear sightlines through the park and gates controlled by the community promote safety. Invasive tree removal increases visibility.

Existing

STAGE

The terraced stage serves as a picnic area, gathering space, and entertainment venue. The hill acts as seating for the stage as well as place space for children.

Existing
**3 MEDITATION AREA**
The meditation area creates a quiet retreat for contemplation and relaxation.

**4 NATURE PLAY & WATER FEATURE**
The nature play space and talky tubes create cognitive, physical and imaginative play opportunities for children. The joint water feature and labyrinth allow for continuous activity through the seasons.
